-Washington Star.

Her Trade.

The girls who are going out in thousands from British factories and workshops to Australia seem to stark generally in domestic service out there.

"I beard of one," says a Mellourne scribe, "who could not cook. But, at-tre days of learning, she produced an cilibid dish tastefully surrounded by seathoged paper. Her mistress took occusion to complianent her upon her constitution of the produced and the same seathoged paper. Her mistress took occusion to complianent her upon her to be a surrounded by seathoged paper. Her mistress took occusion to complianent her upon her work of the production of the production of the production of the paper in the paper in London Opinion.

Speaking of Coal
"I have to raise the price of coal."
The retail dealer said.
"The operators and the roads
Have got retailers dead.
As for our profits, my dear sir.
They've knocked then in the head."

We've not advanced the price of coal,"
The operators say,
The rates as per uclicular
Age sait in force today.
We instend asked the retail trade
A hickel more to pay.

Yes, truth is mighty, as you've heard, And always must prevail.

20th in this case it seems hard work. To get upon its trail.

Meaninet the price of coal goes up On husnel, ton and pail.

—New York Press.

Putting It Clearly,
On the old market square at Paducab, Kr., two enerable megroes, known
to everybody in town as Uncle Arthur
and Encle John, were hobbling a spirited argument on some subject. Just as
a white resident passed them be beard
and white a subject of the property of the second subject of the property of the property

upon Uucle Artuu sharply. "I ain't axin' you is you ain't," snap-ped Uncle, Arthur. "I's axin' you is you is!"-Saturday Evening Post

Desirted.

Oh, the bareball park deserted is a metanchoty place. Where with fame the players firted As they said from base to base!

And they said from base to base!

And the cross in dark review for the control of the cross in dark review for the control of the cross in dark review for the foreasme shoul, "Strike two!"

—Wachington blar.

Now the peanut altucks have vanished From the lines of bleacher scafe, And the cushion seller's banished From the stand where genjus meets. Now the north wind hours and whistless Where the fielders used to be, And no more do men toos missiles. Where the unpite yelled, "Sith three!" Where the unpite yelled, "Sith three!" Denive Republican.

Our First Almanae,
The first almanae in America was
the himanae of William Pierce of Cam-pidge, 1639, while the most famous
was Poor Richard's, published by,
Benjamin's Franklis in Philadelphia under the name of Richard Sauuders and
embellished with wise and witty saylags.

Evolution of Chemistry.

The first chemists were the alchemists, who for hundreds of years rainly tried to make gold by compounding very comparation of the comparati

A Good Word For Tobacco.
A nobleman that was extreamly fat was reduced to an ordinary Size by chewing Tobacco, which also does good in an Astima. This of great use in Camps, where there is many times Scarcily of Vittals and Cholicks and the like.—"Compleat Herbal," 1654.

While life periods for birds have been variously staffed at from two years (or the wren to 100 for the eagle and crow, such figures have lacked suthority. Professor L. Petit has brought to the notice of the Zological Society of France some birds of accurately known age, and these include a parrow of eight years, a blackbird of eleven, a small cardinal of fourteen and an Amazon parrakeet of twenty-five.

Bed Patents.

More patents are issued for beds than any other article of household furniture, and most of them are for freak forms of beds in disguise.

Drunks in Sweden.
Dipsomaniacs in Sweden when put
under restraint are fed almost entirely
on bread steeped in wine. In less than
a fortnight they loathe the very look
and smell of liquor and when liberated
generally become total abstainers. In
Russia a similar treatment is followed
with good results.

French Orders.

A French Orders.

A French Orders.

A French additition has recently been very busy with the sinistics of the second of the second of the second of the second orders. The net result of his rather starding calculations is that there are sirtly for different French orders and they are word by no fewer than 1,700,000 French mea and women. That is to asy, one Frenchman in every twenty-one wears a decoration of some kind.

Jacquard, the inventor of the famous foom, might have become a billionaire. This unscellab Frenchman, though gave his invention to the government, and all the got in return—all he asked in return—was a pension of \$1,000 a

Aciatic Turkey's Farms.
According to Ottoman statistics, the average farm in Turkey in Asia contains about ten acres. Eventy-six per cent of the cipal farms under cultivations are acres of but two and one-third acres. At per cent are between two and one-third acres in a rea, and 27 per cent contain more thins select and one-third deeper and one-third acres in area, and 27 per cent contain more thins select and one-third acres.

Thoughtiessness
They say the world is round and yet
I often think it square.
I often think it square.
From corners here and there.
Brom corners here and there.
But one sad truth in life I ye found
While journeying-east and west
the only folks we resulty wound
We finster those we scarcely know
We please the fleeting guest
And deal full many a thoughtiess blow
To those we love the best.

Why Did He?

Daughter of the House—Is it right what mother says—that you are a self-made man?

Visitor—Yes, my dear. But what makes you sait?

Daughter of the not you give your self such a tuny face.

Wife-What do you mean by telling Mrs. Crewso's husband you never ask my advice about anything. Husband-Well, my dear, I don't. You don't wait to be asked.

The Home on the Hackensack

A Story of General Washington's Scores Service By WILLIAM T. HANGOL

Three will the same on the Hackensach By William of the Control of the Con

Renator John Sharp Williams, a practical agriculturist, has handed out a faw words of advice to the born. "My word to the farm boy," he says, "would be that, the three diements of success are industry, persevent without intelligence does not win, intelligence without industry does not win, and the two together out the compel of with persevence, and to this must be added that degree of honesty in makes friends for meighbors that with the following manager. The following manager is the following manager is the following manager in the following manager in the following manager in the following manager in the following manager. The following manager is the following manager in the following man

### HEREDITY AND THE EYES.

FREEZING WATER.

Conditions That Cause the Bursting or Cracking of tea.

Ice never bursts from freezing. As soon as the liquid of which it is composed in frozen solld expansion ceases. The cracking or bursting of fee is brought about in this way; When water is subjected to extreme cold lee crystals will gradually form on its affect with it has some are covered with a few bursting of the crystals all asbequent freezing goes downward, the fee thickening according to the degree of cold. The water which is being converted into tee now help to be compared to the degree of cold. The water which is being converted into tee now help to be considered to the control of the control of the control of the covered with a control of the control o

bottom of the receptacle supply the renistance.

As the freezing process continues the
pressure upon the confined water and,
air in the interior of the bulk increased
until something yields. If they ressel
has formed over the synface the layer
of rew will be best upward at the center, that being the weakest point, onaccount of the fact that the outer
edges of the congenied mass are frozen
fast to the sides of the vessel in which
make the sides of the vessel in which
condition the center of the fcc contintion to the sides of the vessel in which
condition the center of the fcc conticondition the center of the fcc contiond the vessel be tapped from below
and the water drawn off no amount of
freezing would be sufficient to crack
or bulge the le layer on the surface.

At a Disadvantace.

"A re Disadvantage.
"A newly observed man always has great confidence in the superior wisdom of his wife,"
"Auturally," replied Alles Cayenne.
"A man who has been accustomed to eating with -plaic knives, forks and spoons is likely to feel pretty humble and aubdued while he is being instructed in the use of all the silverware that came with the wedding presents."—Washington Star.

Breaking it Gently
"Whom have you there in tow?"
"This is Rip Yan Winkle. He just
woke up."
"Why goard bim so carefully?"
"Well, we're lefting him see the women's styles gradually, don't you
know."—Louisville Courier-Journal.

Not Encouraging.
"Madam, do you think you can use
your influence with your busband to
induce him to support me in the coming campaign?"
"I don't know, sir. I've never yet
succeeded in inducing him to support
me."—Baltimore American.

of."
"Why do you say that?"
"The other day we got on a car to gether, and I insisted on paying my own fare, and she let me."—Detroit Free Press.

Pscan Nuts.

Try cracking pecan nuts by placing them on end in the nut cracker. One vigorous crushing of the cracker will split the nut open through the center.

Giving Advice.

Sillicus—Not unless I'm pretty sure it won't be followed.—Paliadelphia Record.

### STYLES IN HANDCUFFS.

The Old Time "Twisters" V

The Old Time Twisters' Were Institutements of Torture,
It is in the Acueloi that we find the
first reference to the inadictif. Vergil
informs us that Proteins was, by means
of such a device, fettered and rendered
helpless by Aristacus.
It is of record that about 400 years
before the Christian era an army of
relations of Carthaghians which,
among other things, coultained a large

## Farm and Garden

MANURE FOR THE MELONS.

MANURE FOR THE MELONS.
Altempts to Grow Froit Without Fartillier Are Not Encouraging.
The Infloods agricultural experiments
station has conducted terrifier experiments with ministeneous at Anna, inThion county, for several-years. The
clief objects of the experiments were
to determine the relative efficiency of
supplementing innature, with commercial forms of phosphorus, the effect
of supplementing innature, with commercial forms of phosphorus, the effect
of supplementing innature, with commercial forms of phosphorus, the effect
of supplementing innature, with commercial forms of phosphorus, the effect
of menous accomplete commercial fertilizer in connection with manure and
the effect of substituting commercial
retilizer for manure in the production
of Gen melous. In both localities the
experiments, were conducted on typical
melon soil of the region, that at Anna
that at Kinnandy gray still toom.

Attempts to grow melous without
manure were not very encouraging.
When the complete commercial fertibier was used in the hills to place of
manure the yields were greatly reduced.
This was especially marked in the dield
